INDEX

ABSORPTION of protein split products from colon, 707.

ADES, H. W., F. A. METTLER and E. A. CULLER. Effect of lesions in the medial geniculate bodies upon hearing in the cat, 15.

ADOLPH, E. F. Measurements of water drinking in dogs, 75.

Adrenal cortical insufficiency, kidney function in, 66.

—— influence, hypophyseal and, on renal function, 644.

—— insufficiency, experimental, renal function in, 631.

Adrenaline and metabolism of peripheral tissues, 699.

——, defatiguing effect of, 196.

—— in adrenergic neurones, evidence for, 765.

Adrenergic fiber extracts, effects of, on frog heart, 778.

—— neurones, evidence for adrenaline in, 765.

ALLEN, W. M. and G. P. HECKEL. Maintenance of pregnancy by progesterone in rabbits castrated on the 11th day, 31.

ALLES, G. A. See HAMILTON and ALLES, 410.

Anaerobic recovery, absence of, in mammalian muscle, 761.

Aorta, histo-physics of, 1.

——, standing waves of blood pressure in, 48.

Aortic blood pressure, intramyocardial pressure and, 234.

—— pulse wave, velocity of, 60.

Aqueous humor and cerebrospinal fluid, passage of sorbitol from blood to, 652.

ASHKENAZ, D. M. Nerve impulse frequency and its relation to vasomotor reflexes, 119.

BAKER, Z. See HIMWICH, BAKER and FAZEKAS, 601.

BALDES, E. J. See ESSEX, HERRICK, BALDES and MANN, 614.

BARTLEY, S. H. See HEINBECKER and BARTLEY, 172.

BATES, R. W., O. RIDDLE and E. L. LAHR. The racial factor in the pigeon crop-sac method of bioassay of prolactin, 722.

BAUMANN, E. J. and D. B. SPRINSON. Hyperparathyroidism produced by diet, 741.

BELLOWS, J. See ROSNER and BELLOWS, 652.

BELLOWS, R. T. Time factors in water drinking in dogs, 87.

BERRY, C. See HARRISON, WANG and BERRY, 449.

BEVIN, S. See FRIEDGOOD and BEVIN, 153.

Bile fistula and jaundiced rats, cause of bleeding in, 423.

Bioassay, pigeon crop-sac, racial factor in, 722.

Bladder responses to hypothalamus stimulation, 301.

Bleeding in bile fistula and jaundiced rats, cause of, 423.

Blood coagulation, action of saliva in, 108.

—— coagulability, loss of, in bile fistula and jaundiced rats, 423.

—— clotting, inhibition of, 683.

—— —— time and intravenous injection of heparin, 98.

——, passage of sorbitol from, to aqueous humor and cerebrospinal fluid, 652.

——. *See* Plasma.

——. *See* Serum.

—— plasma volume and available fluid, 142.

Blood plasma volume, sympathetic system and, 713.
—— pressure, aortic, intramyocardial pressure and, 234.
—— ——, effect of exercise on, 614.
—— —— in aorta, standing waves of, 48.
—— ——. *See* Hypertension.
—— pressures, differential, in lesser circulation, 130.
—— serum calcium, electrocardiographic changes and, 162.
—— sugar, effect of fasting on, 457.
—— ——. *See* Hyperglycemia.
—— ——. *See* Hypoglycemia.
—— under insulin, pH of cortex and, 680.
Body heat loss, ease of, in development and function, 36.
—— size and energy metabolism, 747.
Bollman, J. L. See Goudsmit, Power and Bollman, 506.
Boyd, E. M. and D. W. Whyte. The effect of posterior hypophyseal extract on the retention of water and salt injected into frogs, 415.
Brain, infant, respiratory metabolism of, 601.
——. *See* Cortex.
——. *See* Electroencephalogram.
Breathing. *See* Respiration.
Brinkhous, K. M., H. P. Smith, E. D. Warner and W. H. Seegers. The inhibition of blood clotting: an unidentified substance which acts in conjunction with heparin to prevent the conversion of prothrombin into thrombin, 683.
——. See Warner, Brinkhous and Smith, 296.

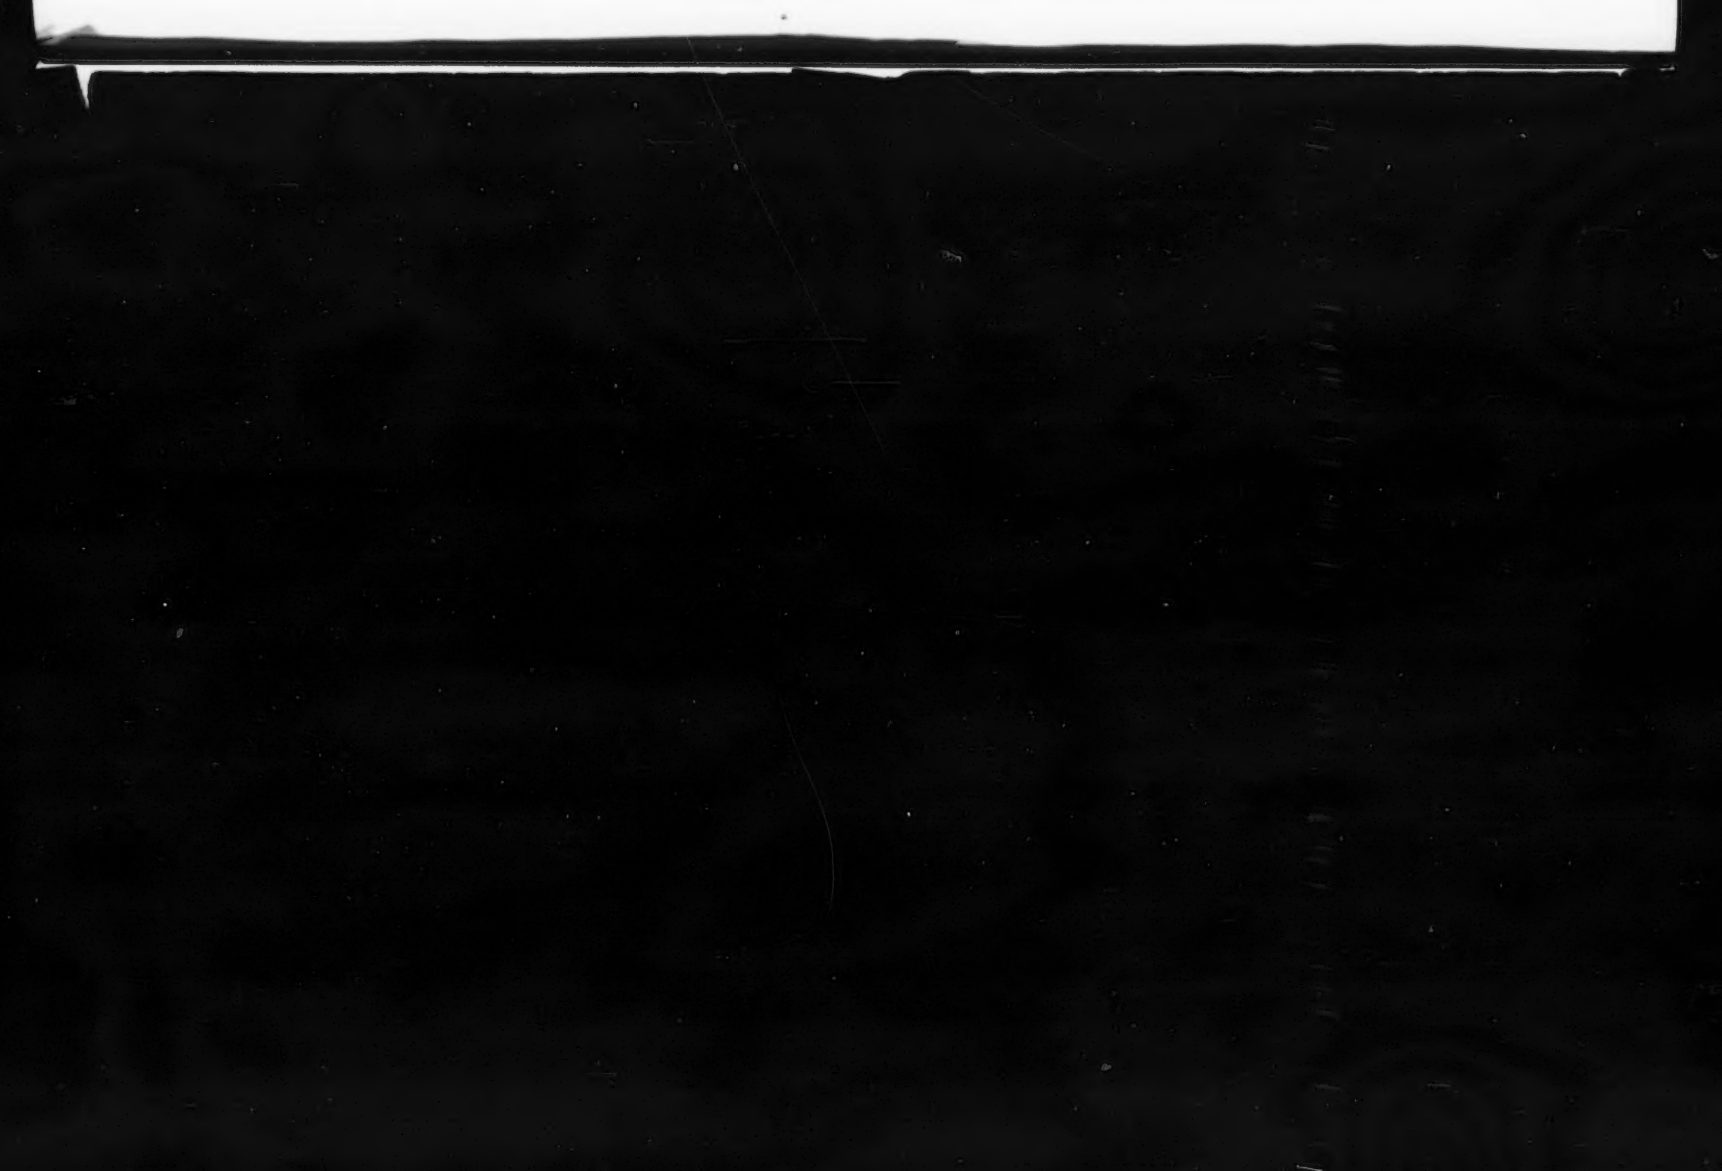
ZINC, effect of, on insulin and its mechanism, 24.



THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME 125

BALTIMORE, MD.
1939

CONTENTS

No. 1. January, 1939

Comparative Study of the Histo-Physics of the Aorta. *Joseph Krafka, Jr.* 1
Effect of Lesions in the Medial Geniculate Bodies Upon Hearing in the Cat. *H. W. Ades, Fred A. Mettler and E. A. Culler* 15
Effect of Zinc on Insulin and Its Mechanism. *Melville Sahyun* 24
Maintenance of Pregnancy by Progesterone in Rabbits Castrated on the 11th Day. *Willard M. Allen and George P. Heckel* 31
Ease of Body Heat Loss as a Basic Developmental and Functional Factor in Warm-Blooded Animals. *C. A. Mills and Cordelia Ogle* 36
The Absence of a Significant Glucose-Lactic Acid Cycle (Involving the Liver) in Normal Unanesthetized Dogs. *Ian S. Cherry and Lathan A. Crandall, Jr.* ... 41
An Experimental Study of the StandingWaves in the Pulse Propagated through the Aorta. *W. F. Hamilton and Philip Dow* 48
An Experimental Study of the Velocity of the Pulse Wave Propagated through the Aorta. *Philip Dow and W. F. Hamilton* 60
Kidney Function in Adrenal Cortical Insufficiency. *I. Gersh and Arthur Grollman.* 66
Measurements of Water Drinking in Dogs. *E. F. Adolph* 75
Time Factors in Water Drinking in Dogs. *R. T. Bellows* 87
The Effect of Intravenous Injections of Heparin in the Dog *Louis B. Jaques* 98
The Mechanism of the Action of Saliva in Blood Coagulation. *Anthony J. Glazko and David M. Greenberg* 108
The Effects of Formalin on the Thyroid Stimulating and Gonadotropic Hormones of Cattle Anterior Pituitary Glands. *S. J. Hayward, J. H. Pollock and Leo Loeb* 113
Nerve Impulse Frequency and Its Relation to Vasomotor Reflexes. *David M. Ashkenaz* 119
Differential Pressures in the Lesser Circulation of the Unanesthetized Dog. *W. F. Hamilton, R. A. Woodbury and Elkin Vogt* 130
Simultaneous Determination of the Plasma Volume with T-1824, and the "Available Fluid" Volume with Sodium Thiocyanate. *Magnus I. Gregersen and John D. Stewart* 142
Cervical Sympathetic Stimulation and Basal Metabolism. *H. B. Friedgood and S. Bevin* 153
Electrocardiographic Changes and Concentration of Calcium in Serum Following Intravenous Injection of Calcium Chloride. *Hebbel E. Hoff, Paul K. Smith and Alexander W. Winkler* 162
Manner of Strychnine Action on Nervous System. *Peter Heinbecker and S. Howard Bartley* 172
Persistent Diabetes following the Injection of Anterior Pituitary Extract. *F. C. Dohan and F. D. W. Lukens* 188
The Defatiguing Effect of Adrenaline. *J. V. Luco* 196

No. 2. February, 1939

The Action of Alternating Currents upon the Electrical Excitability of Nerve. *J. Reboul and A. Rosenblueth* 205
Evidence of Vasodilator Innervation in the Parietal Cortex of the Cat. *Henry S. Forbes, Carl F. Schmidt and Gladys I. Nason* 216
Rôle of the Thyroid in the Carbohydrate Disturbance Which Follows Hypophysectomy. *Samuel Soskin, R. Levine and R. E. Heller* 220
Decreased Resistance to Hypoglycemia on Successive Days of Administration of Insulin. *Warren C. Corwin* 227
Intramyocardial Pressure and Its Relation to Aortic Blood Pressure. *J. Raymond Johnson and Joseph R. Di Palma* 234
Thyroid Stimulation by Cold. Including the Effect of Changes in Body Temperature upon Basal Metabolism. *G. C. Ring* 244
The Blocking and Deblocking Effects of Alternating Currents on Nerve. *A. Rosenblueth and J. Reboul* 251
Conditioned Reactions to Position and Angular Acceleration. *E. A. Spiegel and M. J. Oppenheimer* 265
The Effects of Preganglionic Denervation on the Superior Cervical Ganglion. *A. Rosenblueth and W. B. Cannon* 276
Some Chemical and Physiological Properties of the Gonadotropic Antagonist. *Carl A. Bunde and Arthur A. Hellbaum* 290
Plasma Prothrombin Levels in Various Vertebrates. *E. D. Warner, K. M. Brinkhous and H. P. Smith* 296
The Nature of Bladder Responses Following Stimulation of the Anterior Hypothalamus. *Shih-Chun Wang and Frank Harrison* 301
Vasoconstriction in the Hand From a Deep Inspiration. *Michael G. Mulinos and Israel Shulman* 310
Acute Riboflavin Deficiency in the Dog. *Harold R. Street and George R. Cowgill* 323
The Reproductive Performance of Albino Rats with Previous Vitamin A Depletion Histories. *Ludvig Gustav Browman* 335
Forces and Energy Changes in the Leg During Walking. *Herbert Elftman* 339
The Function of Muscles in Locomotion. *Herbert Elftman* 357
The Strength-Duration Relation of the Normal, Polarized and Narcotized Nerve Fiber. *Ichiji Tasaki* 367
Electric Stimulation and the Excitatory Process in the Nerve Fiber. *Ichiji Tasaki* 380
The Gonadotropic Content of the Hypophysis Throughout the Life Cycle of the Normal Female Rat. *H. D. Lauson, June B. Golden and E. L. Sevringhaus* 396
Is the Physiological Activity of Potassium Due To Its Natural Radioactivity? *Anthony J. Glazko and David M. Greenberg* 405
The Physiological Action of Natural and Artificial Radioactivity. *Joseph G. Hamilton and Gordon A. Alles* 410

No. 3. March, 1939

The Effect of Posterior Hypophyseal Extract on the Retention of Water and Salt Injected into Frogs. *Eldon M. Boyd and D. W. Whyte* 415
The Nature of the Factor Which is Concerned in Loss of Blood Coagulability of Bile Fistula and Jaundiced Rats. *Joseph D. Greaves* 423
Studies on the Vitamin K Requirements of the Rat. *Joseph D. Greaves* 429
The Elastic Properties of the Beating Tortoise Ventricle with Particular Reference to Hysteresis. *Herman Kabat and Maurice B. Visscher* 437

Decussations of Sympathetic Efferent Pathways from the Hypothalamus. *Frank Harrison, Shih-Chun Wang and Charles Berry* 449
The Effect of Fasting on the Blood Sugar of Hereditary Dwarf Mice. *Alfred Marshak, Alison T. Fernald and Alexander Marble* 457
The Mechanism of Failure in the Completely Isolated Mammalian Heart. *Gordon K. Moe and Maurice B. Visscher* 461
The Influence of Posture on Skin and Subcutaneous Temperatures. *H. S. Mayerson and L. A. Toth* 474
The Influence of Posture on Circulation Time. *H. S. Mayerson, H. Morrow Sweeney and L. A. Toth* 481
Gonadotropic Extracts from Green Leaves. *Maurice H. Friedman and Gertrude S. Friedman* 486
An Examination of the Hypnotoxin Theory of Sleep. *J. G. Schnedorf and A. C. Ivy.* 491
The Excretion of Sulfates by the Dog. *Arnoldus Goudsmit, Jr., Marschelle H. Power and Jesse L. Bollman* 506
The Rectal Temperature of the Normal Rabbit. *Robert C. Lee* 521
Homeostasis in the Sympathectomized Dog. *Florence Knauf McDonough* 530
The Uterine Motility Cycle in the Guinea Pig. *Kennett A. Greig* 547
The Inadequacy of Substances of the "Glucose Cycle" for Maintenance of Normal Cortical Potentials During Hypoglycemia Produced by Hepatectomy with Abdominal Evisceration. *Stephen Maddock, J. E. Hawkins, Jr. and Eric Holmes* 551
The Relationship of the Hyperglycemic Principle in Diabetic Urine to the Pancreas and the Hypophysis. *Herbert L. Clay and Hampden Lawson* 566
Roentgen Studies of the Mechanism Involved in Sperm Transportation in the Female Rabbit. *Robert H. Krehbiel and Herman P. Carstens* 571
Cerebral Metabolism and Electrical Activity During Insulin Hypoglycemia in Man. *H. E. Himwich, Z. Hadidian, J. F. Fazekas and H. Hoagland* 578
Studies on Experimental Hypertension in the Rat. *J. T. Diaz and Sanford E. Levy* 586
Vitamin E Destruction by Rancid Fats. *Janet Weber, Margaret House Irwin and H. Steenbock* 593
The Respiratory Metabolism of Infant Brain. *H. E. Himwich, Zelma Baker and J. F. Fazekas* 601
Splenic Volume and the Polycythemia of Artificial Fever in Intact, Unanesthetized Dogs. *Laurence L. Palitz* 607
Influence of Exercise on Blood Pressure, Pulse Rate and Coronary Blood Flow of the Dog. *Hiram E. Essex, J. F. Herrick, Edward J. Baldes and Frank C. Mann* 614

No. 4. April, 1939

The Relative Conductivity of the Tissues in Contact with the Heart. Observations on Animals with Closed Chests. *E. Lindner and L. N. Katz* 625
Renal Function in Experimental Adrenal Insufficiency. *Harold E. Harrison and Daniel C. Darrow* 631
Hypophyseal and Adrenal Influence on Renal Function in the Rat. *E. L. Corey, H. Silvette and S. W. Britton* 644
The Passage of Sorbitol from the Blood into the Aqueous Humor and Cerebrospinal Fluid. *Lawrence Rosner and John Bellows* 652
The Effects of Insulin and Glycine on Hepatic Glucose Output in Normal, Hypophysectomized, Adrenal Denervated, and Adrenalectomized Dogs. *Lathan A. Crandall, Jr. and Ian S. Cherry* 658

Sensitization of the Submaxillary Gland by Sympathetic Denervation. *F. A. Simeone and J. P. Maes* 674
pH of the Cerebral Cortex and Arterial Blood under Insulin. *Clyde Marshall, Warren S. McCulloch and Leslie F. Nims* 680
The Inhibition of Blood Clotting: An Unidentified Substance which Acts in Conjunction with Heparin to Prevent the Conversion of Prothrombin into Thrombin. *K. M. Brinkhous, H. P. Smith, E. D. Warner and W. H. Seegers* 683
The Effect of Chemicals on Cochlear Potentials. *Edward M. Walzl* 688
Adrenalin and the Metabolism of Peripheral Tissues. *Leonard Cammer and Fred R. Griffith, Jr.* 699
The Absorption of Protein Split Products from Chronic Isolated Colon Loops. *Jonathan E. Rhoads, Alfred Stengel, Jr., Cecilia Riegel, Florian A. Cajori and William D. Frazier* 707
The Effect of Adrenaline, Nembutal and Sympathectomy on the Plasma Volume of the Cat. *Edward Hamlin and Magnus I. Gregersen* 713
The Racial Factor in the Pigeon Crop-sac Method of Bioassay of Prolactin. *Robert W. Bates, Oscar Riddle and Ernest L. Lahr* 722
Emotional Hyperglycemia and Hyperthermia in Tropical Mammals and Reptiles. *S. W. Britton and R. F. Kline* 730
pH Changes in Ischemic Human Muscle after Voluntary Contraction. *George L. Maison and Armand C. Forster* 735
Hyperparathyroidism Produced by Diet. *Emil J. Baumann and David B. Sprinson* 741
Body Size and Energy Metabolism in Growth Hormone Rats. *Max Kleiber and H. H. Cole* 747
The Absence of Anaerobic Recovery in Mammalian Muscle. *Jacob Sacks* 761
Evidence for Adrenaline in Adrenergic Neurones. *W. B. Cannon and K. Lissák* 765
Effects of Extracts of Adrenengic Fibers on the Frog Heart. *K. Lissák* 778
The Influence of Vitamin A upon Urea and Inulin Clearance in the Dog. *Raymond C. Herrin and Henry J. Nicholes* 786
Index 803
